(From a Staff Correspondent.)

INCOLN, Aug. 2.—(Special.)—The State Board of Irrigation, Senator Dietrich, Congressman Burkett, State Engineer Dobson and several other persons interested in irrigation will meet in conference with Wood Mead, the irrigation expert, in this city next Thursday. Mr. Mead is the chief of irrigation investigations for the United States Department of Agriculture. His visit to Nebraska is significant, in that it means that preliminary plans will be officially discussed for the construction of reservoirs as contemplated by the irrigation law passed by congress.

Mr. Mead has in connection with the department, which will have the supervision and control of the work of construction, but it is through his office that the first steps toward the building of the reservoirs will be made.

After listening to the importunities of contesting delegations, Secretary of State Marsh has transferred the publication of the proposed constitution to the editorial of the Journal-Herald to the editor of the Journal-Herald, aroused a vigorous storm of protest by defending Treasurer Stuefer in the Third county bond deal.

"I believe this is the best way to avoid a factional fight," said Mr. Marsh. "Mr. Stuefer and Mr. Ott, the editor of the Journal, seem to be with the majority and I didn't desire to go against their wishes."

Lincoln will have six banking institutions after next Monday morning. The large number of banks is being considered with the number of banks doing business here at the close of the hard times period. Ten years ago there were thirteen banks in the city. Consolidations and failures brought the number down to two.

BEATRICE, Neb., Aug. 2.—(Special Telegram.)—The Dempster employees held the annual picnic on the Chautauque grounds today. At 10 o'clock a parade passed through the principal streets, in which appeared a large number of fine floats, including windmills, gasoline engines and different kinds of machinery manufactured by this concern. A basket dinner was served on the grounds from 12 until 2 and the remainder of the afternoon was

AK-SAR-BEN BACK IN DEN

Knights Return at Late Hour from Trip to the Black Hills.

GET A KINDLY GREETING EVERYWHERE

Nebraska Towns Vic with Those of South Dakota in Seeing Which Can Show Excursion.

(Special Telegram.)—The delegates of the Ak-Sar-Ben were given a splendid welcome this afternoon at their respective places on their return from the Deadwood carnival.

They were met at the depot by several hundred citizens and the Wilkins band. The guests were escorted to the Grand Central hotel, where a dinner had been provided. The parade was led by the military band accompanying the delegation and the band in the rear. The landlord, A. J. Elliott, had his dining hall especially furnished for the occasion, which enabled him to accommodate the entire crowd, numbering 160, at one sitting and inside of the thirty minutes they had enjoyed one of the best meals served in their route.

Their time being limited, only about forty minutes were spent in getting acquainted with our people and meeting the business men of the city, with whom their several houses have business relations. The march to the depot was accompanied by both the local and visiting bands.

A number of visitors carried with them on their return to the depot stalks of green corn laden with ears with which the visit of the Grand Central was decorated for the occasion. Our people enjoyed the visit very much and extend a welcome to them or others of Omaha citizens any time they visit us.

Back to Home Town.

With their breasts covered with the bright emblems of Ak-Sar-Ben and voicing the greatest enthusiasm for their western trip, the members of the Ak-Sar-Ben excursion to the Black Hills came pouring into the Burlington station at 12 o'clock last night. Without exception they all declared that this has been the most successful of all trips out of Omaha and that the western country has been captured. The money of the excursionists was no good to them because of abundant hospitality.

The party left here over the Fremont, Elkhorn & Missouri Valley road Tuesday evening and arrived in Long Pine on Wednesday. Stops were made at Alnsworth, where the women of the town were at the depot with bouquets; Johnston, Valentine, Gordon, Rushville, Hay Springs and Chadron. At all these places the people had been exhibiting local products at the depot. The Commercial Men's club of Chadron had carriages ready and took the party for a thirty-minute ride, as did also the citizens of Buffalo Gap. At Hot Springs the excursionists took a plunge in the great swimming pool and then they dined at the Hotel Evans. There were speeches of welcome and a response on the part of the Omahans by Rev. Trefz.

Thursday morning breakfast came at Rapid City, where another carriage ride was taken and some of the party visited Fort Meade. A ten-minute stop was made at Whitewood, where a reception committee was in waiting, and the train pulled out for Deadwood, where it was held up at noon and the party marched into town.

Return Trip.

The longest stop was made here, the departure being deferred until Friday at 1:30 p. m. More plunge baths and a ball marked the return to Hot Springs. At 7 o'clock yesterday morning Alliance, Neb., entertained the Ak-Sar-Ben men at breakfast, they being met by a committee and marched to the hotel, where they enjoyed an elegant spread. Captain W. R. Acree welcomed the excursionists, who made a sitting reply.

Hyannis had a unique greeting. On a big wagon was a great pile of boxes marked, "Thought from Omaha." An anchor vehicle was fastened to the wagon, "From Kansas City," and on another a little box representing the St. Joe trade of Hyannis.

At Theford was a particularly fine display. Dinner was had at Broken Bow, after which stops were made at Ansley, Mason City, Ravenna and Grand Island, where the party had supper. The people of Deadwood, where the excursionists with the greatest enthusiasm. They say that for one man who went on the journey to the Black Hills they will send ten to Omaha in the fall. Members of the party say that they expect a thousand mountain men here for the Ak-Sar-Ben festivities.

During the entire time the party was on the road the Twenty-second regiment band rendered excellent music, playing for the dance at Hot Springs and at every station while the train stopped.

The only regrettable incident of the excursion was a rather painful accident to H. J. Penfold at Hot Springs. He, with a number of others, was returning from the plunge bath late in the evening. In crossing the tracks in the dark he fell into a ditch, bruising his face.

FIX DEATH FOR LOVESWAR

Jurors Find Prisoner Guilty of Murder and Name His Life as the Penalty.

STURGIS, S. D., Aug. 2.—(Special Telegram.)—The verdict of guilty, with the penalty of death, was brought in by the jury in the Earnest Loveswar murder case late last night.

The jury in the Earnest Loveswar murder case late last night. Loveswar killed George Puck of Sioux City, Ia., and George Ostrander of Climbing Hill, Ia., on a ranch on the Red Owl, near this place. The jury was composed of S. D. Taylor, F. M. Jackson, C. Clark Anderson, John Miller, W. H. Swafford and Henry H. C. Comstock, M. H. Mance, Ed Whitman, Frank Devera, Hugh Carney and C. D. Berger.

The testimony in the Loveswar murder trial was concluded at 3 o'clock yesterday. Judge Rice granted a short recess to rest the jury and the arguments were resumed. Attorney Wesley Stuart, of counsel for the state opened the argument before the jury on behalf of the state.

"The jury in the above entitled action found the defendant, Earnest Loveswar, guilty of murder as charged in the information, and we fix the penalty at death."

The above verdict was brought into court by the jury shortly before 12 o'clock last night in the case of Loveswar, charged with the murder of George Puck.

There has been the interest taken by the entire public that notwithstanding the fact that the jury was in the court room was crowded, even the standing room being filled. The defendant, as the verdict of the jury was read in a clear voice by the clerk of the court, sat stolidly by his counsel with downcast head and never lifted his eyes from the floor. There was a general murmur of approval from the entire audience as the clerk concluded the reading.

As the defendant was being conducted from the court room to his cell by sheriff Smith, he was seen to utter a most hopeless appearance. Judge Rice fixed Wednesday, August 6 for passing the sentence as to the date of the defendant's execution.

It is quite widely believed in some quarters that Loveswar was not alone in this case. There is a rumor that before the date of his execution arrives he will divulge more information and implicate someone else.

Coroner McElroy and Sheriff Smith are being universally extolled for the prompt manner in which they arrested the guilty party, and it was due to their interest that Attorney Stuart was employed as additional counsel for the state.

James McEnany and McMahon made short address on behalf of the defendant. To the surprise of all the defendant went on to declare that in his own defense, but before leaving it made several damaging admissions, though he denied the confession. The most novel theory of a defense ever interposed in a criminal trial was put forward by Loveswar's attorneys. The defendant went on to declare that he had stated that Dr. McElroy, the coroner, took him into the sheriff's office, that the doctor placed his knees against those of the defendant and kept looking him so intently in the eyes that he said anything and everything the doctor wanted him to. The theory argued by the defendant's attorneys was that the doctor by hypnotic power and the power of suggestion made him confess to a false state of facts.

STOCKMAN KICKED TO DEATH

Michael J. Morris of Meade County Dies from Injuries Inflicted by Horse.

STURGIS, S. D., Aug. 2.—(Special.)—Michael J. Morris, a well known stockman of Meade county, died at Horse Creek Tuesday from the result of a horse's kick. About two weeks ago he started for this city from Wibaux, N. D., with a four-horse team. On the way he was thrown under the feet of the wheel team and severely kicked. He died while being brought to town.

His sister, Mrs. McCarrick of Pittsburg, ordered the remains shipped to that place, where they were buried. Application was at once made for a special administrator of the estate and G. W. Huffman of this city was appointed. The deceased had about 500 head of cattle besides some real estate.

Will Flock to South Dakota.

MITCHELL, S. D., Aug. 2.—(Special.)—As soon as the harvest days are over in Iowa and Illinois there is going to be a great rush of farmers from those sections to South Dakota. This is made plain from many sources. Real estate men over the state are besieged with letters for information concerning the state, so that these eastern men can pick out a route that strikes them as being about right. A real estate man in this city said that two weeks ago he made a trip through Iowa to the Illinois line and on the way met fifty judges in the Vanderbilts and every man said that he had from five to ten men ready to come to South Dakota just as soon as the harvest was completed.

Masons Give Farewell Smoker.

MITCHELL, S. D., Aug. 2.—(Special.)—A farewell smoker was tendered H. C. Clark at the Masonic hall Thursday night, which was participated in by the members of all the Masonic bodies in the city. Mr. Clark is to leave in a short time with his family for Buffalo, N. Y., to engage in handling the Wasser pencil machine. He has been connected with the postoffice in this city for the last fourteen years, the last four of which he was postmaster, yielding his position to Harry L. Bras. Mr. Clark has held several important positions with the Masonic bodies and the smoker was given him as a testimonial of the good feeling extended him by his fellow citizens.

Dakota Threshers Incorporate.

PIERRE, S. D., Aug. 1.—(Special.)—Threshing machine operators in the vicinity of Sioux Falls have incorporated under the name of the South Dakota Threshers' association, with headquarters at Sioux Falls. The association has no capital stock and the incorporators are: Ciel Liggett, T. H. Davis and W. A. Smith. The purposes of the corporation as set out in the articles filed are for mutual benefit and exchange of ideas as to the best machinery to handle and the best way to work it. The organization is presumably anti-trust and has nothing to do with the price of threshing.

Becomes Enraged While with Party Because Taunted About Domestic Difficulty Which He Recently Had with His Wife.

SALT LAKE CITY, Utah, Aug. 2.—At the Salt Palace grounds early this morning J. C. McCallin, a well known mining man of this city, shot and killed Little Russell, dangerously wounded F. Max Peters and committed suicide by shooting himself through the head.

McCallin, Miss Russell, Peters and another man whose name has not been learned, formed a party which attended the bicycle races. It is said that McCallin had trouble with his wife and had been drinking. Peters and Miss Russell are said to have taunted him about his domestic trouble, whereupon he became enraged, drew a revolver and shot Miss Russell, who had started to run, through the back. Peters, who attempted to keep McCallin from shooting the girl, was shot through the chest. McCallin, after firing a shot at the other member of the party, placed his revolver to his right temple and fired a bullet through his head. He died an hour later.

Peters is in a precarious condition, but it is thought he will recover. Miss Russell was a waitress and recently came here from San Francisco.

SEABOARD LINE INDEPENDENT

President Williams Says His Company Has No Intention of Entering Any Combination.

BALTIMORE, Aug. 2.—John Skelton Williams, president of the Seaboard Air Line railroad, when asked today what part the Seaboard is taking in the pending railway combinations reported in the south, said: "The Seaboard is now, and will continue, absolutely independent. We have never entertained a proposition to enter any combination, although we have been approached from one or the other of the various schemes of this sort."

President Williams said he had just awarded contracts for 20,000 tons of steel rails. This is in addition to the 10,000 tons which are now being delivered. He also said that bids are being asked for about \$10,000 worth of equipment for the line to Birmingham.

TRAINMEN ARE UNDER ARREST

Conductor and Engineer Are Charged by a Coroner's Jury with Manslaughter.

Y., Aug. 2.—Conductor Frank de La Vergne and Engineer Daniel Connelly, whose criminal negligence is alleged to have resulted in the disastrous wreck on the Lehigh Valley railroad on Sunday, July 26, have been arrested on warrants issued by Coroner Klendinsten, charging them with manslaughter.

Both men have been released on bail in the amount of \$2,000, and a hearing will be conducted at the morgue today. Conductor de La Vergne lies at his home in a serious condition. He has been suffering from mental collapse ever since the wreck, and the physician in attendance says he fears serious consequences for his patient because of a violent attack in the case charging him with being responsible for the wreck.

HELENA, Mont., Aug. 2.—The State Board of Equalization received protests today from representatives of railroads operating in Montana against an increase of 185 per cent in the railroad assessment of the state. Land Filings Drop Off.

PIERRE, S. D., Aug. 1.—(Special.)—The July filings at the land office in this city are not quite up to the standard of previous months of the year, and those for August will probably be light. Harvest will cut down the number of land seekers, but September will again state the movement and the fall months are expected to be greater than those of last spring. The total number of filings for July are about 110, which is about four behind the average for the earlier month of the year.
